

Salesforce Technical Trainer

About PepUp Tech

PepUp Tech was founded in 2016 to help underrepresented groups gain access to careers in the tech industry through our three core programs: Young Tech Explorers, Salesforce Bootcamp, and Salesforce Virtual Academy. While the tech career ecosystem is one of the fastest growing industries in the United States it is also the least diverse. By running programs that give bright, motivated, underserved students the skills, mentors, and confidence needed to begin careers in tech, PepUp Tech has developed a scalable model of workforce development that will benefit thousands of young people and the tech industry as a whole. <https://www.pepuptech.org/>

About YES INDY

Originally known as Youth Employment Services, YES Indy has empowered over 6,000 low-income, out-of-school Marion County residents since 2003 through barrier-busting support (such as vouchers for child care, legal assistance, housing, or transportation), career services, and connection to education, training, and job opportunities. Acting as a guide and intermediary, EmployIndy utilizes its network of local community organizations as the purveyors of YES Indy services. <https://employindy.org/youth-services/yes-indy/>

About EmployIndy

EmployIndy was formed in 1983 as a result of the federal Job Training Partnership Act (JTPA), and was charged with directly delivering workforce services to Marion County residents. After five years of delivering a wide range of services to job seekers, EmployIndy's leaders created the Indianapolis Network for Employment and Training as an umbrella marketing entity to signal the integration of workforce development services. <https://employindy.org/about/>

Position Summary

PepUp Tech is committed to providing students with the necessary skills and aptitudes needed to secure employment in the Salesforce ecosystem. This year we are partnering with EMPLOYINDY and YES INDY to deliver Salesforce training to a pilot cohort of 15 students.
